OBJECTIVE

Computer Science student and software developer with a focus on building AI-powered applications, modern web systems and developer tools. Interested in turning complex ideas into practical, well-designed software.

EDUCATION

Bachelor of Computer Science, NUML University

Expected 2028

SKILLS

TypeScript

Python

Rust

React

Next.js

NestJS

PostgreSQL

Docker

LLMs / RAG / AI Agents

TECHNICAL EXPERIENCE

- Built software across AI, web, backend and systems using TypeScript, Python, Rust and modern development frameworks.
- Developed applications involving LLMs, RAG, AI agents, realtime communication and databases.
- Gained hands-on experience building and deploying software across web, mobile, desktop and Linux environments.
